CANDIDATES AT PINE BLUFF AND HELENA.

The Illinois Democratic Convention -Pennsylvania Prohibitionists-Michigan Republicans.

HEDENA, Aug. August 26 .- At an early hour this morning the 'colored people from the gurrounding country began to arrive to be in attendance at the speaking of the Gubernatorial can-didates. Judge Gregg, the Republican nominee, spoke first, and then was followed by Gov. Hughes. The speeches by both gentlemen were above the average and replete with information. Both gentlemen left this afternoon for Jonesboro, where they speak tomorrow.

PINE BLUFF, ARE., August 28 .- Gov. Hughes and Judge Grege, candidates for Governor, made speeches here last night. Gov. Hughes made a terrific arraignment of Republican abuses Judge while they were in power. Judge Gregg appeared at a great diradvantage, as he was on the defensive and had to palliate and excuse the Govorn r's charges as best he could.

Breckinridge Renominated by Acclamation, SEARCY, ARK., August 20.-Clifton R. Breckinridge was renominated for Congress by acciamation by the Dem-ocrats of the Second District.

Illinois Democrats, SPRINGFIELD, LL., August 26.—The Democratic State Convention was called to order at roon by the Hon. Alfred Orndorff, Chairman of the

State Central Committee.
The Hon. James W. Duncan was named as temporary chairman. Mr. Duncan in his speech gave un-qualified praise to the administration of President C'eveland.

The convention hall was liberally supplied with circulars signed by the Executive Committee of the State Labor Association, asking for a resolution abolishing prison contract labor. After appointing a Committee on Credentials the convention adjourned

to 2 o'clock. The convention met at 3 o'clock p.m. The Committee on Permanent Organization presented a report recommending that the temporary organization bemade permanent, which was sgreed to

nranimously.
Nominations being next in order, the Hon. George C. Anderson, of Quincy, was placed in nomination for State Treasurer by H. J. F. Ricker, of

There being no further names proposed, the nomination was made by acclamation. Gen, Jesse Phillips, of Montgomery

county, presented the name of Prot. F. T. Oldt, of Lanark, for Superintendent of Public Instruction, and he was nominated unanimously.

After the nominations had been made, and while awaiting the report of the Committee on Resolutions,

Mesars, Ricker and Oldt were intro-duced to the convention. They brief-ly expressed thanks for the nominaions conferred upon them, and promsed to exert themselves to the utmost to secure the election of the ticket. Congressman Lawler spoke briefly

to a question of privilege, and then guenots from New Rochelle; others, the Committee on Resolutions reported the platform, which was adopted unanimously and without debate. The platform declares in favor of a

reduction of the present nojust tariff to a revenue basis, and heartily in-dorses the action of these Democratic representatives in Congress who were faithful to the cause of tariff reform. It favors a financial policy in which gold and silver coin and paper currency, convertible into coin on demand, shall constitute the circulating medium, and that the surplus in the National Treasury should be applied in payment of the national public debt; beyond that large accumulation in the Treasury beyond the proper necessities of the public service shall not occur, thus assuring honest and economical government, and relieving the people from unnecessary and oppressive taxa'ion.

Michigan Republicans,

GRAND RAPIDS, MICH., August 26.— The Republican State Convention met again soon after 8 o'clock this mornng and is now effecting a permanent organization. There promises to be a fight over the adoption of the platform. Early yesterday evening the Commitlarge part of their work was done with but little delay. However, the temperance question caused a delay in their precedings. A prohibition plank was offered, and the committee discussed the question without interwithout having a tiled the question. At 8 o'clock the committee again as temb'ed and resumed the fight. It is probable that a compromise will be effected in the committee, which will result in the fight being transferred to

the floor of the convention.

Unable to Effect a Compromise, ALEXANDRIA, VA., August 26.-The Democratic Congressional Convention atter an all day and all night session adjourned at 5 o'clock this morning after taking 205 ballots without result. All efforts to make the Hon. J. S. Barbour the candidate felled, as did also efforts to effect a compromise. GERMANS IN CANADA. An Important and Thrifty Portion

of the Dominion Population. Montreal Gazette: It is to Ontario we must look for the bulk of our German population. In that province the earliest German settlers can hardly be said to have "come in with the con-queror." Not conquest, indeed, but defeat occasioned the timely and wel-come gift to the wilderness of Western Canada of what a century ago it most needed - that is, men to till the ground.

For the Ontario that was to be was fortunate that the triumphant "Sons of Liberty" could not find it in their freedom-loving hearis to tolerate the Tories who had remained loyal to their King. For, starting at Kingston and moving westward along the shores of Bay Quinte, and so, in the course of time, over the whole of the rich province of the future, the disposessed Loyalists gradually occupied their adopted country till in a generation they were strong enough to fight for it with their old kinsmen and lose.

Among them there was a considerable contingent of Germans some them veteran soldiers, others the descendants of settlers in New York and Pennsylvania; others Teutonized Hu-Palatines who had been planted in Ireland by Queen Anne. The original settlement of 1784 was increased by subsequent accessions. In the be-ginning of the present century a num-ber of Mennonites settled in Waterloo, and a few years later a German com-pany in Pennsylvania bought 45,000

scres in the same township.

That they have multiplied is evident from the last census of the districts of North and South Waterloo, which shows that in the former, of a total population of 20,986, no less than 15,557 are German; while in the latter 8,811 out of 21,754 are of the same extraction. If less numerous in other districts they are still considerable. Taken altogether, there is no more industrious, inventive, enterprising and thrifty class of citizens, and as the Saengerfest indicates, they have not neglected in Canada those artistic tastes, and especially that genius for music, which, in the o'd world, are among the best known characteristics

ENGLISH AND FRENCH DRAMA. The Difference Between Art and Artists to the Two Countries.

Temple Bar: The French drama differs from the English altogether, in nature and in essence. The less you change your scene, the better a play snits the French instinct and their fa-voti'e theories of unity. The more you change it in reason, subject to ob-vious necessities, the better it tallies with the English instinct, be it bad or

Our old plays prove that for us, as the old French plays prove the oppo-site for them. The Rivals of late years has never failed comparatively speaking, but once, just recently, when its scenes were transposed and unified to suit this new and absolutely imaginary and artificial rule of construction, in deference to a supposed demand of the public, who proved their view of the matter by stopping away. French rules are one thing, En-glish snother; and an English drama by French rule is apt to be a glieb hybrid and a bore. Some time ago one of the most able and distinguished of living literary Englishmen was sitting by me, an old friend, in the stalls. The play before us was beau-tifully constructed. The furniture was perfect and undisturbed by rade change or the frivolities of human psssion, which require it occasionally. After an act he said to me: "Plays are not half so well put together as they used to be; they never change the scene."

I have often thought what a lesson that should be to the people who "know all about it"; for the speaker—there is no breach of decorum in saying so—was the Lord Chief Justice. His is a literary judgment to which personally I should not be ill content to appeal. But, poor man, he is only a public, after all, and knows nothing about it. He has got to be told.

the Atlanthus. Naw York, August 24.-The deadly al anthus must go from New York if the Board of Health carries out its present intention, arrived at on the strength of some very vigorous reprewho claim to be sufferers from the ex balations of the beautiful tree, which has of late years become one of the commonest of ornamental shade trees of the city. The first allanthus trees in New York were planted some fifty years ago in University place, and they now have full possession of that neighborhood, having been largely planted there, and also having spread spontaneously. In others parts of the city they are less abundant. At the headquarters of the Board of Health today an expert said, in making a formal complaint as to the trees near

his house:

"Few people know how poisonous is the pollen that falls from the tree during July and August. It is the cause of no end of sickness every summer. Any number of cases of alleged malaria are simply atlanthus poison-ing. No vegetation will thrive in the shade of a tree. The smell of the flowers makes many sick, and disgusts everybody. Invalids are powerfully affected by it."

The same gentleman said that, bring an intimate friend of ex-President Arthur, when he read of his relapse after his beneficial drives in the park, he went to see if there were not allanthus trees near the ex-President's house. He found a large number of them in the neighborhood, and three in the back yard. He urged the dan-ger of this sort of vegetation upon Mr. Arthur, and attributed much of his improvement at New London to his removal from the deadly atmosphere which the trees create. The Brooklyn health authorities some time ago took action against the ailanthus, but this is the first official attention it has re-ceived in New York, although Dr. Edson, the president of the board, says its deleterious effects are undoubted, and have been frequently complained

Burralo, N. Y., August 26,-The scond day's session of the German Evangelical Synod was well attended. The Rev. C. L. Schild read the report of the Seminary Committee. An ad-ditional theological professor is urged for the St. Louis seminary. A change in the seminary course is also suggested, requiring a five years' cours in the saminary at Chicago before the graduate can teach, and three years more at the St. Louis seminary before he can preach. The treasurer's report gives a flattering account of the condi tion of the finances.

Mrs. Cleveland on Temperance, New York Sun: The temperance people of the Union, and they seem all the time to be increasing in both numbers and zea', will rejoice to know that the young and beautiful mistress of the White House is on their side. Recently Mrs. Crow, a lady of Virginia, begged of Mrs. Cleveland an opinion as to the propriety of a woman's signing the temperance pledge. The President's wife promptly replied from the White House, under date of August 12th, in this brief and wise letter: EXECUTIVE MANSIEN. WASHINGTON.

Mrs. A. M. Crow: The subject to which you refer and ask my advice is one in which your own conscience must dictate the wisest course for yourself to pursue. You have better opportunities for knowing how you can do the most good, and, it seems to me, that should be the standard by which we women should settle all our great questions in life.
